Education:

Web Development Immersive
General Assembly, 2015

B.A. Philosophy
University of Colorado at Boulder, 2010

Who I Am

A Full Stack Web Developer with a skill set focused on Javascript and back end technologies like Rails and Express looking to take the next step in this challenging and rewarding industry.

Web Development Experience

General Assembly Web Development Immersive | Sept 2015- Dec 2015

dogMinder | http://petminder.github.io/petminder-frontend/
Inspired by my dog Rupert and his health, this application is built on a Rails backend and PostgreSQL database. Uses Amazon Web Services (S3) for image upload and Bcrypt for authentication. Front end is built on HTML5/CSS3 responsive Bootstrap template. The app utilizes JavaScript for logic and jQuery to make AJAX calls built on RESTful API.

packRat | http://midden.github.io/packRat-frontend/
Inspired by Dropbox, this application is built on an Express backend, connecting to a MongoDB database utilizing Mongoose for schema control. Includes Amazon Web Services (S3) for file uploads and Passport for authentication. Front end built on HTML5/CSS3 Bootstrap responsive theme utilizing JavaScript and jQuery to make AJAX calls and jQuery for data rendering based on RESTful API.

Beer Locker | http://jcmeyer10.github.io/tap-app/startbootstrap-one-page-wonder-1.0.3/
Inspired by my love of craft beer, this application is built on a Rails backend with a PostgreSQL database. The app uses Bcrypt for authentication. The front end uses a Bootstrap theme based on HTML5/CSS3. It relies on JavaScript for the logic and jQuery to make AJAX calls based on a RESTful API. Data rendering is handled by Handlebars.

Past Experience

IT Recruiter | Daley and Associates | 2015-2015 | Boston, MA

IT Recruiter | Elevate Technology | 2011-2015 | Rockland, MA
Responsible for Full Life Cycle Recruiting within the IT industry for both hardware and software roles. Worked with clients and candidates to deliver the highest quality to our clients and the best experience to our candidates.
